### **Pwllheli Harbour Dredging Works**

Dear Resident,

Pwllheli Harbour Dredging Works - As you might be aware, L&M Keating has commenced work on behalf of Gwynedd Council to dredge the marina basin and the approach channel. This notification follows previous correspondence from the Maritime and Country Parks Unit in December 2009 regarding the emptying of the stilling lagoon. We would like to take this opportunity to apologise for any inconvenience caused during the works. Measures have been agreed with Gwynedd Council Environmental Health Unit to minimise the impact of the works and to ensure that noise levels are kept to a minimum at all times.

Works Involved - The works involved will be to dredge the marina basin using two dredging operations. The first dredger will be a Damen suction dredger which will be attached to 20ton long reach excavator, positioned up on a floating Barge. For the second operation, we will be using a Versi Dredger and the two machines will be working together during the working hours of 08:00 and 17:00 Monday to Saturday. Between the hours of 17:00 and 08:00 there will only be one dredging machine working to keep noise levels to a minimum. Works are expected to be completed by the 17<sup>th</sup> of April 2010.

Once again we thank you for your patience and co-operation. If you require any further information, please do not hesitate to contact any of the officers listed below.

Mr Barry Davies – Maritime and Country Parks Unit Tel - 01758 -704066

Mr Gareth Freeney – L&M Keating Construction ltd Tel - +353659050090
