

## Consultation Plan: Supplementary Planning Guidance

<b>Consultation Title:</b> <b>Supplementary Planning Guidance: Maintaining and creating distinctive and sustainable communities</b>	<b>Information/ key dates/ activities</b>
<b>1. Why do we need a consultation (short summary, e.g. statutory requirement, policy development, etc)?</b>	<p>After the adoption of the Joint Local Development Plan a series of supplementary planning guidance on specific topics needs to be prepared. The Plan identifies the Supplementary Planning Guidance: maintaining and creating a distinctive and sustainable communities as one of the series. The purpose of guidance is to say how the Plan's policies should be interpreted and applied in specific circumstances or in specific areas. Supplementary Planning Guidance do not form part of the Plan but must be consistent with the Plan and with national policy. They must be derived from a generic policy in the Plan, specific policies for places, and/or designation in the Plan, and clearly cross-reference to those sources. According to the Local Development Plans Manual (2015) guidance should be the subject of consultation followed by the necessary changes before their formal adoption. It is likely that little weight can be given to guidance that do not meet these criteria in any planning appeal.</p>
<b>2. What are the main objectives?</b>	<p>Ensure that:</p> <ol style="list-style-type: none"> <li>i. the Guidance fulfills its purpose, which is to provide clear advice about how to interpret specific policies in the Plan;</li> <li>ii. that relevant stakeholders are aware of the opportunity through Public consultation to view the Guidance in its draft form, and to submit written comments about its contents;</li> <li>iii. that the respondents are aware of how their responses will be addressed, that their responses could lead to a change in the Guidance, and who will make the final decision on the content of the Guidance.</li> </ol>
<b>3. What needs to be discovered?</b>	<p>Does the Guidance:</p> <ol style="list-style-type: none"> <li>i. provide a robust description of a distinctive and sustainable community in the local context?</li> <li>ii. identify the full 'family' of policies that promote development that will contribute to maintaining or creating distinctive and sustainable communities?</li> <li>iii. provide robust advice about the information that would be needed to support planning applications?</li> <li>iv. includes explanation of key considerations in Policy PS 1, e.g. what is meant by unexpected windfall sites, significant harm, etc;</li> </ol>
