

MEETING: PENSION BOARD

DATE: 17 DECEMBER 2015

TITLE: INVESTMENT PORTFOLIO

PURPOSE: To inform members of the Fund Investments

RECOMMENDATION: NOTE THE INFORMATION

AUTHOR: CAROLINE ROBERTS, INVESTMENT MANAGER

I. Investment Powers

The Pension fund has the power to hold many types of investment. The principal powers to invest are contained in the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 as amended. These permit a wide range of investment for Fund monies which are not immediately required to pay pensions and other benefits.

There are a number of restrictions within the regulations which can be increased by the fund. Gwynedd's current restrictions are noted in Column (A) below. However, the regulations allow administering authorities to set limits up to those to those noted in Column (B).

	The Fund's Current Restrictions (A)	Regulations: Increase the Limits to (B)
1. Any single sub-underwriting contract.	1%	5%
2. All contributions to any single partnership.	5%	5%
3. All contributions to partnerships.	15%	30%
4. The sum of all loans and any deposits with any local authority, or any body with power to issue a precept or requisition to a local authority, or to the expenses of which a local authority can be required to contribute, which is an exempt person (within the meaning of the Financial Services and Markets Act 2000 [4]) in respect of accepting deposits as a result of an order made under section 38(1) of that Act.	10%	10%
5. All investments in unlisted securities of companies.	10%	15%
6. Any single holding.	10%	10%
7. All deposits with any single bank, institution or person (other than the National Savings Bank).	10%	10%
8. All sub-underwriting contracts.	15%	15%
9. All investments in units or shares of the investments subject to the trusts of unit trust schemes managed by any one body.	25%	35%
10. All investments in open-ended investment companies where the collective investment schemes constituted by the companies are managed by one body.	25%	35%
11. All investments in units or other shares of the investments subject to the trusts of unit trust schemes and all investments in open-ended investment companies where the unit trust schemes and the collective investment schemes constituted by those companies are managed by any one body.	25%	35%
12. Any single insurance contract.	35%	35%
13. All securities transferred (or agreed to be transferred) by the authority under stock lending arrangements.	25%	35%

There is currently a consultation in progress to change these regulations by removing the limits in order to facilitate pooling and collaborative investment.

2. Specialist Advice

The Local Government Pension Scheme Regulations oblige the Council to take specialist advice on investment. This advice is provided by an independent advisor from Hymans Robertson (the Fund's advisers), who joins the Pensions Committee in monitoring the Investment Managers. An advisor from Hymans is always present at the Pensions Committee's quarterly meetings with the Investment Managers.

3. Asset Allocation

One of the key determinants of the Fund's long-term overall performance is its strategic asset allocation. The Fund's strategic asset allocation is shown in the table below.

Asset	%
Equities	72.5
Bonds	15.0
Property	10.0
Private equity	5.0
Infrastructure	2.5
Total	100.0

4. Investment Management

The main objective of investment policy is to maximise the return on the money entrusted to the Council, consistent with acceptable levels of risk and for the annual return in the longer run to exceed the level of wage inflation.

It must be borne in mind that the Fund's liabilities (pensions) are very long-term, extending to the middle of the century. These liabilities will increase with inflation, both because of the index-linking of pensions and also due to the rising level of employees' salaries and wages to the time of retirement.

There is a relationship between the level of returns achieved and the contribution rate which employers are expected to pay. The Pensions Committee considers that in the long run equity returns will exceed bond returns and it is for this reason that the majority of the Fund is invested in equities.

5. Investment Managers

The Fund has appointed a number of investment managers with different investment mandates. The target distribution of Fund assets is shown in the table below. The investment in infrastructure will be built up over a period of time and therefore the actual allocation has not yet reached the target.

Manager	%
BlackRock	29.5
Veritas	19.0
Fidelity	19.0
Insight	15.0
UBS / Lothbury / Threadneedle / BlackRock (Property Only)	10.0
Partners – Private equity	5.0
Partners – Infrastructure	2.5
Total	100.0

A detailed breakdown of the benchmark is attached at Appendix A.

6. Investment Manager Briefs

As a result of a deliberate policy to diversify assets and investment styles, the Fund has 5 Investment Managers with varying briefs:

Investment Manager	Brief
BlackRock	Passive
Fidelity	Active
Insight	Active
Veritas	Active
Partners	Active

BlackRock is briefed to be a “passive” manager. The manager will allocate their mandate’s asset allocation in line with that of the benchmark and in each market they aim to track stock exchange indices. As a result, their mandates’ performance should be in line with their respective benchmarks. Appointing a passive manager reduces the risk of underperformance, relative to benchmark; however, it also reduces the possibility of out performance, relative to the benchmark.

All the others are “active” managers. They are given the discretion to invest in their best investment ideas. Whilst they have a great deal of flexibility, in terms of which stocks, regions and sectors they can invest in, there are a number of restrictions in place which prevents the managers deviating too far from the benchmark and taking excessive risk. Appointing active managers increases the possibility of outperformance, relative to the benchmark; however it also increases the risk of underperformance, relative to benchmark.

Veritas and Fidelity have an “active” equity brief while Insight has an “active” bond brief. Partners Group has been given “active” private equity and infrastructure briefs.

7. Investment Performance

The performance of the Investment Managers is monitored on a quarterly basis. Investment Managers submit quarterly reports and valuations to the Pensions Committee, the relevant officers at Gwynedd Council and the Fund’s adviser. Every quarter a meeting is held between Investment Managers, the Committee, officers and the adviser to monitor their performance.

8. Performance Monitoring

The Pension Fund subscribes to a service provided by the State Street Global Services which calculates the rate of return for Gwynedd and for other Pension Funds and provides comparisons.

9. Targets

Individual performance benchmarks for the Investment Managers are shown in the table below.

Manager	Benchmark	Target
BlackRock	FTSE All-Share and FTSE All-World Indices	Benchmark Return
Veritas	MSCI All Countries World Index	Benchmark + 2% p.a. (gross of fees)
Fidelity	MSCI All Countries World Index	Benchmark + 2%-3% p.a. (gross of fees)
Insight	Cash (Libor)	Benchmark +2% p.a.
Partners	MSCI World	Benchmark + 5% p.a.*

**Partners do not have an official performance target. The target stated above is purely for indicative purposes.
MSCI=Morgan Stanley Capital International*

The property investments are made directly with existing funds and the managers have not been given a benchmark. However, for indicative purposes they are monitored against the IPD Balanced Property Unit Trust Index.
