PLANNING COMMITTEE	DATE: 13/06/2016
REPORT OF THE SENIOR PLANNING AND ENVIRONMENT SERVICE MANAGER	GWYNEDD

Application Number: C15/0807/20/CR
Date Registered: 29/07/2015
Application Type: Listed Building Consent
Community: Y Felinheli
Ward: Y Felinheli

Proposal: RETROSPECTIVE APPLICATION TO RETAIN A PONTOON WITHIN THE QUAY.
Location: MENAI MARINA, FORMER SLATE QUAY, Y FELINHELI, GWYNEDD, LL56 4JN

Summary of the Recommendation: TO APPROVE UNCONDITIONALLY

1. Description:

- 1.1 This application was deferred at the Committee on 19 October 2015 due to the procedure for speaking at the committee. The application was deferred at the Committee on 9 November 2015 due to the committee's observations requesting an update to the structural assessment. This assessment was received on 15 April 2016 and a second consultation was undertaken with everyone.
- 1.2 This is a retrospective listed building application to retain a pontoon within the quay. The pontoon is located on the northern wall and measures 30m long and 2m wide. It is linked to the harbour wall in three locations by an iron bracket which allows the pontoon to rise with the tide. There is a ladder going down the wall to the centre of the pontoon. The pontoon is constructed from iron and wood.
- 1.3 The site is part of the existing marina located in Felinheli. The harbour wall is a grade II listed structure. The site is within a C2 Flooding Zone.

2. Relevant Policies:

- 2.1 Section 38(6) of the Planning and Compulsory Purchase Act 2004 and paragraph 2.1.2 of Planning Policy Wales emphasise that planning decisions should be in accordance with the Development Plan, unless material considerations indicate otherwise. Planning considerations include National Planning Policy and the Unitary Development Plan.
- 2.2 Under the Well-being of Future Generations (Wales) Act 2015 the Council has a duty not only to carry out sustainable development, but must also take reasonable steps in exercising its functions to meet its sustainable development (or well-being) objectives. This report has been prepared in consideration of the Council's duty and the 'sustainable development principle', as set out in the 2015 Act, and in making the recommendation the Council has sought to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs. It is considered that there would be no significant or unacceptable impact upon the achievement of well-being objectives as a result of the proposed decision.
- 2.3 **Gwynedd Unitary Development Plan 2009:**

B2 – ALTERATIONS TO LISTED BUILDINGS OR BUILDINGS IN THEIR CURTILAGES - Ensure that proposals do not cause substantial damage to the special architectural or historical character of Listed Buildings.

PLANNING COMMITTEE	DATE: 13/06/2016
REPORT OF THE SENIOR PLANNING AND ENVIRONMENT SERVICE MANAGER	GWYNEDD

B3 – DEVELOPMENTS AFFECTING THE SETTING OF A LISTED BUILDING - Ensure that proposals have no adverse effect on the setting of Listed Buildings and that they conform to a number of criteria aimed at safeguarding the special character of the Listed Building and the local environment.

2.4 **National Policies:**

The Welsh Office Circular 61/96 – Planning and the Historic Environment: Historic Buildings and Conservation Areas.

3. **Relevant Planning History:**

3.1 C01A/0291/20/CR – Provide pontoons and a car park for cars (reviewed application) - Approved 4-1-2002

3.2 C15/0603/20/CR – Retrospective application to retain three closed security gates – Approved by the Committee on 7/9/15 and sent to Cadw.

4. **Consultations:**

Community/Town Council: Not received

The Victorian Society Not received

Royal Commission on the Ancient and Historical Monuments of Wales: Not received

Ancient Monuments Society Not received

The Georgian Group Not received

British Archaeological Council Not received

The Society for the Protection of Ancient Buildings: Not received

PLANNING COMMITTEE	DATE: 13/06/2016
REPORT OF THE SENIOR PLANNING AND ENVIRONMENT SERVICE MANAGER	GWYNEDD

Public Consultation:

A notice was posted on the site and nearby residents were notified. The advertising period has ended and several items of correspondence were received objecting on the basis of the following relevant planning matters:

- The impact of the pontoon on the wall's stability
- The wall's condition which is fairly vulnerable
- The impact of installing the pontoon on the wall and the possibility of the wall falling into the sea with the back gardens of nearby houses.
- The importance of obtaining an independent structural report.

The following observations were also received that are not material planning matters:

- Installed without permission

Following receiving an update to the structural assessment and a second consultation, a number of objections were received to the assessment, including:

- The assessment is completely inadequate and lacks detail
- The assessment does not refer to crack at the top of the wall
- The assessment does not refer to the previous collapse
- The assessment does not refer to tide matters and the impact on the pontoon in a fragile location
- The assessment does not refer to the fact that the pontoon has been raised from its position in Winter

5. Assessment of the relevant planning considerations:

- 5.1 As this is a listed building application, the only matters that are assessed are the conservation matters, namely the impact on the appearance and historical character and architectural nature of the listed structure. There are no other matters that are relevant in assessing this application.
- 5.2 Paragraph 68 of the Welsh Office Circular 61/96 – 'Planning and the Historic Environment: Historic Buildings and Conservation Areas' states that Local Planning Authorities should have particular regard for the desirability of preserving the listed building or its setting or any features of special architectural or historic interest which it possesses. Policy B2 of the GUDP upholds this and states that proposals for external or internal alterations, additions or change of use of Listed Buildings will be approved provided that the proposal will not cause significant harm to the special architectural or historic character of the building.
- 5.3 The proposal entails retaining a pontoon located on the harbour's northern wall measuring 30m long and 2m wide and constructed in iron and wood. It is linked to the harbour wall in three locations with an iron bracket which allows the pontoon to rise with the tide. Another large pontoon has already been approved and installed within the harbour, therefore the proposal will not install any new feature at the site.

PLANNING COMMITTEE	DATE: 13/06/2016
REPORT OF THE SENIOR PLANNING AND ENVIRONMENT SERVICE MANAGER	GWYNEDD

- 5.4 There is no concern regarding the impact of the pontoon on the appearance or the character of the listed structure as it is linked to the historical use of the site as a marina which continues at the site. It is in keeping with the existing pontoon within the site and it will not appear alien within the harbour and because of this it is considered that it does conform to the requirements of policies B2 and B3 of the GUDP.
- 5.5 The objections have drawn attention to the condition of the harbour wall and the appropriateness of installing a pontoon on a wall where sections have fallen in the past. This raises concern regarding if the wall is structurally robust to be able to withstand the pontoon and the tide. An engineering report has been submitted with the application and states that installing the pontoon has not had any detrimental effect in terms of the structure's engineering.
- 5.6 Following the Committee's decision to request more information and as a result of that the receipt of the update to the structural assessment, a Surveyor within the Council was consulted in order to obtain confirmation that the report received is fit for purpose. A response was received from the Council's Surveyor stating: "Assessing the condition and strength of a unique structure such as this wall is a specialist field. Richard Broun Associates are specialists in the field - they provide guidance to us as a Council on similar situations and we acknowledge them as qualified, reliable and fair-minded Consultants. I cannot disagree with their findings in this case. According to their report they have inspected the wall on two different occasions with a year in between the two visits. Their findings seem confident and they are not ambiguous and do not raise any significant concerns. In the absence of specialist evidence to the contrary, I see no reason not to accept their findings and advice."
- 5.7 It is seen from the response to the consultation period that concerns remain about the situation and the content of the latest report received (referring to the observations received in Part 4 above). However, no specialist advice has been received which states to the contrary and therefore there is no reason not to accept the finding and advice noted in the most recent report by Richard Broun Associates. It must also be noted that the matters raised by the objectors are not planning matters and could possibly be civil matters.

6. Conclusions:

- 6.1 The new pontoon is not considered to be too large or out of character bearing the entire site in mind. There are no implication on the appearance or character of the listed structure and the submitted engineering report, including the update submitted, states that the wall is strong enough to be able to support this pontoon. Therefore, it is not considered that approving the application would have a detrimental effect on the appearance or historic character of the listed structure or the amenities of the wider area and, therefore, it is considered that the proposal is in accordance with policies B2 and B3 of the GUDP.

- 7. Recommendation:** To approve subject to receiving confirmation from Cadw.

1. In accordance with plans
